

STUDY POINTS

Abdominopelvic Module

MyEMCert study points can be used to focus areas of study and preparation. The study point does not contain specific information that would lead you to the diagnosis or correct answer but would instead direct you to learning and reference materials.

Abdominopelvic Module Study Points

Abdominal-Intestinal

- Diagnostic evaluation and treatment of acute abdominal pain
- Diagnostic evaluation and treatment of chronic abdominal pain
- Clinical characteristics of abdominal aortic aneurysm
- Diagnostic evaluation of upper abdominal pain
- Diagnostic evaluation and treatment of epigastric pain
- Diagnostic evaluation and treatment of right lower quadrant abdominal pain with fever
- Diagnostic evaluation and treatment of right lower quadrant pain in women of child-bearing age
- Diagnostic evaluation and treatment of pelvic pain
- Diagnostic evaluation and treatment of food-borne illness
- Diagnostic evaluation and treatment of pancreatitis
- Diagnostic evaluation and treatment of post-operative complications of GI surgery
- Diagnostic evaluation and treatment of complications from gastric bypass
- Diagnostic evaluation and treatment of spontaneous bacterial peritonitis
- Treatment of infectious disorders of the GI tract
- Treatment of patients with recurrent flank pain
- Causes of upper GI bleeding
- Treatment of upper GI bleeding
- Treatment of a perforated viscus
- Diagnostic evaluation and treatment of constipation
- Treatment of post-colonoscopy complications
- Diagnostic evaluation and treatment of ingested foreign bodies
- Management of abdominal pain in the immunocompromised patient

Children

- Diagnostic evaluation and treatment of pediatric abdominal pain

Rectal

- Treatment of rectal bleeding
- Treatment of rectal foreign bodies
- Management of anorectal pain

Hepatobiliary

- Diagnostic evaluation (including imaging) and treatment of acute gall bladder disease

Genitourinary-Renal

- Diagnostic evaluation and treatment of genitourinary (GU) infections
- Diagnostic evaluation of hematuria
- Diagnostic evaluation and causes of dark urine
- Diagnostic evaluation and treatment of renal trauma
- Diagnostic evaluation and treatment of flank pain during pregnancy
- Diagnostic evaluation and treatment of recurrent flank pain
- Diagnostic evaluation and treatment of dysuria
- Diagnostic evaluation and treatment of acute renal insufficiency
- Diagnostic evaluation and treatment of urinary retention
- Diagnostic evaluation and treatment of urinary tract obstruction
- Diagnostic evaluation and treatment of nephrolithiasis
- Diagnostic evaluation and treatment of ureterolithiasis
- Complications and management of indwelling urinary catheters
- Diagnostic evaluation and treatment of sexually transmitted diseases
- Treatment of priapism
- Diagnostic evaluation and treatment of the acute scrotum in adults
- Diagnostic evaluation and treatment of penile swelling in adults
- Treatment of prostatitis
- Identification of high-risk patient for pyelonephritis

Children

- Diagnostic evaluation and treatment of GU disorders in children
- Diagnostic evaluation and treatment of the acute scrotum on a child
- Diagnostic evaluation and treatment of penile swelling in the child

Gynecologic

- Diagnostic evaluation and treatment of vaginal bleeding
- Treatment of dysfunctional uterine bleeding and menorrhagia
- Diagnostic evaluation and treatment of pelvic pain
- Diagnostic evaluation and treatment of mid-cycle pelvic pain
- Diagnostic evaluation and treatment of ovarian disorders
- Diagnostic evaluation and treatment of ovarian torsion
- Diagnostic evaluation and treatment of tubo-ovarian abscess
- Risk factors for sexually transmitted infections
- Diagnostic evaluation and treatment of sexually transmitted infections
- Treatment of pelvic inflammatory disease
- Diagnostic evaluation and treatment of vaginal lacerations

Pregnancy and Post-partum

- Diagnostic evaluation and treatment of vaginal bleeding in the pregnant patient
- Diagnostic evaluation of vaginal bleeding in the first trimester

- Diagnostic evaluation and treatment of abdominal pain (including suspected appendicitis) in pregnancy
- Diagnostic evaluation and treatment of pelvic pain in pregnancy
- Diagnostic evaluation and treatment of flank pain in pregnancy
- Diagnostic evaluation of the assisted reproductive pregnancy
- Treatment of gallbladder disease in pregnancy
- Diagnostic evaluation and treatment of hypertensive disorders of pregnancy
- Diagnostic evaluation and treatment of post-partum complications
- Diagnostic evaluation and treatment of pre-eclampsia and eclampsia
- Diagnostic testing for post-partum urinary retention
- Diagnostic evaluation and treatment of C-section complications
- Diagnostic evaluation and treatment of post-partum infections
- Diagnostic evaluation and treatment of severe vomiting in pregnancy
- Significant risk for post-partum endometritis

Miscellaneous

- Management of complications from alcohol use disorder
- Diagnostic evaluation of the patient with sickle cell disease
- Antidotes for treating poisoning
- Recognizing arachnid envenomation
- Diagnostic evaluation and treatment of complications of anticoagulants
- Treatment of carbon monoxide toxicity
- Treatment of mononucleosis
- Evaluation of decision-making capacity
- Diagnostic evaluation and treatment of eating disorders
- Management of hernias
- Diagnostic evaluation and treatment of acute chest pain
- Diagnostic evaluation and treatment of acute coronary syndrome
